

OCALA, FLORIDA, THURSDAY, SEPTEMBER 28, 1916

VOL. 22, NO. 225

## WEATHER FORECAST

Overcast tonight, probably showers and cooler in northwest portion; Friday local showers, cooler in north portion.

GREECE WILL SIT IN  
THE WAR GAME

Prospect of an Attack on Bulgaria Seems to Greatly Enthuse the Greek People

(Associated Press)

London, Sept. 28.—Although no new infantry advances on the Somme front have been reported by Paris, artillery action has been constant. The French have been pushing out east from Rancourt and at Bouchavesnes to the south are almost directly north of Peronne. Meanwhile the Germans attacked east of the Meuse on the Verdun front, between Thiaumont and Fleury. Paris declares these assaults were repulsed.

## RUSSIAN ATTACKS RESUMED

The Russians have resumed their violent attacks in Southern Volhynia and Galicia. It is reported that counter attacks have delayed the Russian advance.

## BULGARS BEATEN

The repulse of Bulgarian attacks by the French and Russians near Florina is reported by Paris. The British artillery fire has increased on the Struma.

## CALLED HOME

Prince George of Greece, a brother of King Constantine, who has been in London representing the Greek court, received a telegram from the king this morning recalling him to Athens.

## BUCHAREST BOMBARDED

Berlin claimed a repulse of the Allies over a greater part of the Somme front. The British claimed advances. It was announced that German aviators had again bombarded Bucharest.

## GREECE ABOUT TO SIT IN THE GAME

Athens, Sept. 27 (Delayed).—The Associated Press is in position to state positively that King Constantine decided this morning in favor of an immediate declaration of war on Bulgaria.

## PROSPECT OF WAR PLEASES THE PEOPLE

After a session of the ministerial council a cabinet meeting was hastily called. The premier said a note of character that mobilization would logically follow might be sent to Bulgaria. It later developed the king had decided to declare war. The decision was not publicly announced as the details, including an ultimatum demanding instant evacuation by Bulgaria of Greek Macedonia and mobilization plans remained to be worked out.

Suppressed excitement is evident everywhere. The prospect of war with Bulgaria is apparently welcome.

## HAD TO EXPLAIN TO HER HUSBY

Mrs. Leduc, Like Poor Dog Tray, Suffered for Being in Bad Company

(Associated Press)

Philadelphia, Sept. 28.—The woman who was shot in a hotel room here yesterday by Mrs. Harry Belzer, who killed J. C. Graveur of New York, and then committed suicide, has been identified as Mrs. Joseph C. Leduc.

When Leduc visited his wife this morning she told him, in the presence of several detectives, that she attended the theater with Graveur, who was a family friend, leaving her handbag in his room. She intended going to New York immediately and was shot as she entered the room to get the handbag. She denied traveling with Graveur or having registered as his wife.

## LET THEM OFF LIGHT

Supreme Court was Easy on Erring Pensacola Newspaper Men

Tallahassee, Sept. 28.—Imposing fines amounting only to the costs in the case, the supreme court yesterday dismissed the charges against Percy S. Hayes, managing editor of the Pensacola Journal, and Bryan Mack, correspondent who represented that paper during the recent gubernatorial nomination recount proceedings here. The court stated that the press had gone so rampant that it felt its duty to let it be known that there was such a thing as contempt.

## SUICIDE AT PORT ORANGE

Port Orange, Sept. 28.—Colonel F. W. Roe, U. S. A., retired, committed suicide by shooting himself at his home here today. He was an invalid. The interment will be in Washington.

For delicious hot biscuits use Juba Self-Rising Flour. At all grocers. \*

## ANXIOUSLY AWAITED

By the Germans News of the Safe Arrival of the Submarine Bremen

(Associated Press)

Berlin, Sept. 28.—News of the actual docking of the submarine Bremen at New London was lacking today. It is generally assumed that a telegram announcing the departure of the conveying tug from the American port will be followed by the announcement of the submarine's arrival. The owners of the vessel have been anxious for a week. It is assumed the heavy storms delayed the Bremen.

## AGENTS HAVE NO IDEA

New London, Sept. 28.—The Bremen's agents here said they had no idea when the submarine would arrive.

## CHAIRMAN RANEY'S CALL

Says Republicans are Promoting Democratic Split and Hope to "Carry the State"

"Tampa, Fla., Sept. 27, 1916."

"Notice of call for meeting of State Democratic Executive Committee of Florida:

"A meeting of the state democratic executive committee of Florida is hereby called to be held at Jacksonville, Fla., Seminole hotel, Saturday, October 7, at 10 o'clock in the forenoon, for the purpose of adopting such measures as may be proper and necessary to aid in the election of all nominees of the democratic party."

"A meeting of the campaign committee will be held at the same place immediately on adjournment of the state committee."

"Very truly yours,

"Geo. P. Raney,  
"Chairman State Democratic Executive Committee of Florida."

Mr. Raney's statement follows: "It is undoubtedly the duty of the state democratic executive committee to give every assistance in its power to the election of the regular nominees of the democratic party, national, state and county, in the ensuing general election."

"The republican party encouraged by the factional fight within the democratic party in this state is, for the first time in many years, making a genuine effort to become a factor in Florida politics."

"One contestant for democratic nomination has undoubtedly declared his intention of running for governor in the general election whether he obtains the democratic nomination or not; notwithstanding the fact that his leading counsel has stated substantially over his own signature that every ruling made by the supreme court of this state with respect to such content is based absolutely fair and impartial, and that such counsel has perfect confidence that future rulings of the supreme court will be equally fair and impartial, and the same leading counsel is quoted in the press dispatches as having voluntarily apologized to the supreme court for the unwarranted aspersions cast upon the judiciary of this state by his client."

"With the democratic party confronted with these conditions I deem it my duty to issue the above call for another meeting of the committee."

## MORE MONEY FOR THE GOOD CAUSE

L. R. Trammell, for the Ocala democratic finance committee, has forwarded another \$35 to the national headquarters in New York. This makes a total of \$210.50 forwarded. Not all of this sum is from the city. Substantial contributions, as has already been noted, have been received from democrats in various parts of the county.

## WINDING UP THE YEAR'S WORK

The county commissioners are in session today, completing the work of the fiscal year. A new year begins on Oct. 1.

For service first, trade at Gerig's Ocala's best drug store.

SHOWS FEW SIGNS  
OF A STRIKE

Manhattan's Sympathetic Walkout Doesn't Seem Likely to Materialize

(Associated Press)

New York, Sept. 28.—Labor leaders apparently today met small success in their renewed efforts to bring about a general strike for the purpose of aiding the striking traction employees. The strike was called yesterday, and, despite claims that there are more than 25,000 laborers out, the police said there was little evidence of a general strike.

## OCALA'S PARK BEAUTIFUL, 1926

What It Is Now and What It Will be in Nineteen Twenty-Six

Yes, we have now only about 14 acres of land, known as the Taylor pond property, at present used as a dumping ground for the city, in order to fill in the swampy places. But on this 14 acres are a naturally drained pond, which it is proposed to make into a beautiful lake, a natural rock grotto, around which are some beautiful ash trees, and inside wild ferns growing. There are also many beautiful wild shrubs and some flowers already planted.

It is hoped that by 1926—we say that length of time—because it takes sometime for the public to become interested in an idea which seemingly means so much time and expenditure of money before it can be a thing of reality and beauty—to have the park well developed, with an artificial lake, rustic bridges, play grounds for the children, tennis courts, a beautifully shaded mall with trees—benches between—and other smaller drives, beautiful flower beds of gorgeous bloom, shrubs, trees, etc., an ideal place in which to spend an hour or so either morning or afternoon. A fine place for the little folks to enjoy swings, wading pools, sand banks and other amusements so dear to the tiny tots; shady retreats for the ones who have decided to walk the long path together and in the meantime, are planning, as they walk these shorter park paths, the delightful things they will do when happy days arrive and they will always walk together. For the business man, a place to rest and go over in his mind the many plans of larger things; for the weary worker—a quiet place to rest and read, or enjoy the beauties of nature. A place for the boys and girls to have a good time. In short, a nicely located resting place for all conditions, sizes, classes and ages to enjoy whenever they so desire.

In the building of a city, usually the "park idea" is one of the most important things introduced into the plans as parks are a great asset in a business way, as well as wonderful beautifiers of a city.

The park tea to be given at the residence of Mr. and Mrs. Harvey Clark on Friday from 4 to 10 o'clock, for the benefit of the park, will be the first of a series of entertainments for the benefit of the park.

Sometime in October of November it is planned to have a "park clean-up day," when all who are interested will be asked to come, spent the day, with rake, hoe or wheel-barrow, man or boy, to help with this first work of getting the park started, and also to show people just what a nice location Ocala has for a park beautiful, and some of the natural advantages of the beautiful little rock grotto, the pond, which can be drained and made into a lake, the rich soil, etc. A lunch will be served the workers by the committee.

It is hoped that Ocala people will join together in this work. It was for many years that a library was planned and worked for before it became a reality, but at last the beautiful little building is a reality, and a pleasure and pride of the town.

The park idea is no vague dream, impossible of fulfillment, but a thing feasible, though it may take years to develop it, but all good things must sometimes grow slowly, but just as surely must they all have first a beginning, so this park idea has begun, and it will continue to grow until matured into a full, well grown beautiful work of Ocala boosters and workers, and believers in the possibility of another attraction for an already wonderfully attractive little city.

Let all help in every way possible, some with pen and some with money, some with words, but all with strong encouragement and boosting.

Knockers and "Doubting Thomases" are asked to refrain from expression of opinion, unless they are open to conviction and willing to see the error of their ways, and afterwards to join the ranks of the makers and helpers of our park beautiful.

A Park Booster.

AMERICA NEEDS  
AN AWAKENING

President Lynch of the Bankers' Association Presents Some Self-Evident Truths to Our People

(Associated Press)

Kansas City, Mo., Sept. 28.—The American Bankers' Association, whose membership has during the past year reached a total of 16,016 banks, opened its general convention here today with its president, James K. Lynch of San Francisco, delivering an address in which he discussed the federal reserve act and national defense.

"The primary purpose of government," he said, "is to provide adequate defense for the country governed, and how shamefully this purpose has been neglected under one administration after another is a familiar tale."

"We are given to boasting of our size, but when we are no longer capable of feeling pin pricks in our feet, we are not too large. For years our citizens in Mexico have been subjected to murder and the most untellable outrages, and the national consciousness is barely aroused. Not in Mexico alone, but within our own borders as well as on the high seas, have our people on their lawful occupations been done to death while the nation has slumbered or murmured feebly in its sleep."

"As a nation, we have grown rich, and have grown fat, and have grown soft, and we are today the most tempting prize under the blue canopy of heaven."

"But if as a nation are sick, it is as individuals that we must supply the cure. Congress does not lead, but follows public opinion. First of all, we need co-operation, team work, the things that win any kind of human endeavor, and to secure this there is nothing quite so good as universal military training which arouses national feeling and national consciousness as nothing else can do."

"In the task of vitalizing the nation, the most important agency is the press, which informs, instructs, advises, admonishes the people. It ill becomes one ignorant of the difficulties encountered in collecting and distributing the news, to criticize the apparent failures or deficiencies, but it is too much to ask of our papers that they take the larger view of our national affairs and help in the difficult task which is before us, and to ask of our people that they discriminate between the varying grades of ability and integrity with which the work is done."

"If our people can rise to the heights of citizenship that the times demand, the work that must be done can be accomplished peacefully and in order, but if they will not learn from the bitter experience of our kin across the sea, the reformation will be worked out amid the ruin of war."

The republican candidates for governor, senator, congressman and some other offices will speak in Ocala on the night of Oct. 9.

## HAD BILIOUS ATTACKS

"My son nineteen years of age suffered frequently from bilious attacks. My husband brought home a bottle of Chamberlain's Tablets and began giving them to him. They helped him right away. He began to eat heartily and picked up right along," writes Mrs. Thomas Campbell, Kirksville, N. Y. Obtainable everywhere. Adv.

## A VOTE AHEAD

Knott Will Have a Plurality of One Even if Alachua Goes to Catts

(Associated Press)

Jacksonville, Sept. 28.—Knott headquarters stated this afternoon that W. V. Knott on the count today had one vote the lead over Catts in the gubernatorial contest, assuming that Catts would be given the sixty-nine votes in Alachua precinct No. 3.

## PUSHING WORK ON THE NEW PLANTS

Benjamin Thompson, Contractor, has Put on Extra Men, and Will Keep Them Extra Busy

Benjamin Thompson, contractor, has placed extra men on the construction of the new light and water plants, and intends to proceed as rapidly as possible with the work. The brick walls of the building, which were recently condemned and torn out, are building again as fast as the brick arrives. Work has been started on the foundation piers for the water tower.

## ORANGE SPRINGS PICNIC A SUCCESSFUL EVENT

The basket picnic and farmers meeting at Orange Springs yesterday was a decided success. The address of C. S. Barrett, president of the National Farmer's Union, was the feature. An excellent dinner was served by the ladies, and thoroughly enjoyed. A house to house canvass was decided on for the purpose of promoting the Orange Springs fair, and the Marion County Fair. Mr. Barrett will attend the Marion County Fair, and will make an address.

Mr. Barrett was introduced by M. P. Walsh, advertising manager for the Florida Farms and Homes Inc. The farmer's union has been in existence 12 years, and Mr. Barrett has been president for 11 years. He spoke on the "Co-operative and Educational Movement Among the Farmers."

Mr. Barrett said that he had traveled extensively over the country, and that he was much impressed with the possibilities in Florida. Florida's natural resources, he said, exceeded those of California, which has been built up by concerted "boosting." He said that Florida, with greater natural resources, could, with one-tenth of the money and one-tenth of the population, be as successful as California.

Mr. Barrett referred to the parcels post as one of the things promoted by the farmer's union. He spoke of the farmer's need for education, for legislation, for good roads. The greatest need, he said, is better marketing facilities.

A local farmer's union was organized yesterday. Those who attended the picnic from Ocala were: Mrs. Anna Tweedy, secretary of the Marion County Fair Association, Frank Harris, editor of the Banner, J. M. Meffert, J. D. Rooney, S. P. Hollinrake, R. W. Blacklock, demonstration agent for Marion county, Bruce Meffert, Mrs. J. R. Moorhead, canning club agent for Marion county, Miss Annie Moorhead, Mrs. A. T. Thomas and Frank Morrison.

## RALLY DAY AT THE METHODIST CHURCH

Next Sunday, Oct. 1st, is rally day at the Methodist church. The Business Men's Bible Class is looking forward to a large attendance. Last year on rally day this class had 117 present. This year they would like to have at least 125. Come and bring your friend. Any one who can't walk, if you will notify the class a car will be sent for such ones. Time, 9:30 a. m. Place, Methodist church.

Carl A. Smith of the Southern Express company, who has been spending his vacation of two weeks in Ocala has returned home.—St. Petersburg Independent.

## CURED HER CHILDREN OF COLDS

"During the past winter I had occasion to give Chamberlain's Cough Remedy to my two children, who were at the time suffering from severe colds. It proved to be the very medicine they needed," writes Mrs. Myron J. Pickard, Memphis, N. Y. Obtainable everywhere. Adv.

## FLORIDA PEAT IS THE FINEST

Immense Beds in the State, Can be Used Not Only for Fertilizer, but as a Basis for Ammunition

Jacksonville, Sept. 28.—Robert Ransom, peat specialist, who has been making an exhaustive study of Florida peat beds, has just returned from Washington, where he attended the annual meeting of the American Peat Society, of which he is vice president. Mr. Ransom declares there is great interest in official circles in Florida's peat deposits, and that particularly Senator Fletcher is impressed with the immense deposits, estimated conservatively at 3,500,000 acres.

The Florida peat, according to Mr. Ransom, is richer in nitrogenous units than that of other sections, which makes the war department particularly interested. The practicability of using peat as the base of a cheap but highly efficient fertilizer appeals to the department of agriculture and an appropriation was secured jointly from the two departments some time ago for investigations. The nitrogenous element is so plentiful in Florida peat that the war department is seriously considering, it is said, the feasibility of using peat as a basis for ammunition manufacture, and General Crozier, head of the United States ordnance department, has shown keen interest in the situation.

## SOME NECESSARY ROADS

## WILL BE FINISHED SOON

County Commissioner Luffman of Citra, was asked by a Star representative this afternoon what amount of work, if any, had been done on the road from Silver Springs to Orange Springs. Mr. Luffman said that the road, which for many months has been cut through from Silver Springs to Fort McCoy, is now being cut through from Fort McCoy to Orange Springs and would probably be completed to that point by Nov. 1. Mr. Luffman said that work would then start on grading up the entire stretch of the road with a view to putting it in good travelable condition. He said, too, that a road from Citra to Orange Springs would be built shortly.

A highway connecting Ocala and Orange Springs is of great importance. At Orange Springs the highway would connect with the brick road to Palatka, and open a short and quick route to Jacksonville, providing a direct road from Jacksonville to Tampa and points south by way of Ocala. The road from Silver Springs to Orange Springs was advocated by "Good Roads" Smith, of St. Petersburg, in his address to the Central Florida Highway association in session here last spring. The road would enable motor parties, entering the state at Jacksonville, to get into Central Florida without going a round about way. It would form an important connecting branch of the Dixie Highway.

## GET RID OF THAT MISERABLE FEELING

There are few diseases that make one feel more miserable than a disordered stomach. Mrs. A. Wingale, Gorman, N. Y., writes: "I began using Chamberlain's Tablets about five years ago. At that time I was having a great deal of trouble with my stomach. I suffered great distress due to indigestion and constipation. Nothing did me much good until I got Chamberlain's Tablets." Obtainable everywhere. Adv.

TRYING TO CAPTURE  
AMERICAN TRAINS

Activity Reported of Villa's Bandits While American Troops Await Carranza's Orders

(Associated Press)

Field Headquarters American Expedition, Sept. 29 (Wireless to Columbus).—Villa with six hundred men was at Santa Clara ranch, thirty miles east of Namiquipa, Sept. 22nd, for the purpose of capturing trains near Laguna and with the idea of striking north and invading Texas near Fabens, according to a report received here last night. A number of noted outlaw leaders are with him. Villa is said to have walked with the aid of crutches. Army headquarters declined to vouch for the authenticity of the report.

## AMERICANS WILL BE TREATED AS INVADERS

El Paso, Sept. 28.—The crossing of the Mexican border by armed American soldiers still is regarded as invasion and will be forcibly repelled, according to a message Consul Garcia received from Colonel Ojinaga relative to American patrols crossing the border in the Big Bend district last week.

## WILL MARCH WEDNESDAY

Change of Date of Industrial Parade During the Marion County Fair

The date of the industrial parade during fair week has been changed from Thursday, Thanksgiving Day, to Wednesday. This has been done at the request of the ministers of the city, in order that the parade will not interfere with the Thanksgiving sermons. The parade committee is busy, and the merchants and business men and farmers are going in for the procession. The success of the parade last year has had it a effect.

Rivers says phone 319 for genuine Butternut Bread 10c. 9-27-3t
